iM Financial Group Ending Coal Financing Declaration

iM Financial Group actively supports the global effort to respond to the climate crisis and leads the transition to a low-carbon economy through eco-friendly finance.

- First, we strive to expand sustainable finance, such as loans and investments in renewable energy, to transition to a low-carbon and eco-friendly economy.
- Second, we will not participate in project financing (PF) for the construction of domestic and international coal power plants in the future.
- Third, we will not underwrite bonds issued by special purpose companies (SPCs) for the construction of domestic and international coal power plants in the future.
- Fourth, we will not underwrite general bonds intended for the construction of coal power plants in the future.
